

Wettbewerb Corona Wir & Ich

Elena Huber

We can do it

Life is a story and you are the author, you choose what happens to you in the story, you are the one who writes it until the end and you are the only one who can change the story.

But in these years a new unexpected character has come into our story, like an impostor and the only problem is that we can't erase or control it.

The character ^{is} named Corona, it changed a lots of things in our story, it closed the restaurants, it brought us lockdowns,  lots of rules and a lots of ill people,  lots of Covid-Tests and vaccines.

It infected a lots of peoples but we don't have to let it to infect our happiness, We must make ourselves, our family and our friends happy.

I can understand people when they say that they are fed up with so many rules, but if we follow the rules now maybe in the future the virus will disappear and we will live normally again.

I don't know if the virus will disappear but until then we have to accept that this character has entered our story and we have to learn to live with it until it gets out of our story.

I know that's difficult to live with it, but we can do that together and we have to be strong, we don't have to let the fear control us, fear

doesn't help us at all, it just makes us panic.

Yes, it's true that the virus is there, in the story and can kill us, but if we are scared, it doesn't help.

I know we don't have to meet lots of people but sometimes we can do that, because meeting friends or persons that make us feel good so... that's sometimes happiness.

We can do that, let's continue our story, let's make our story happy, let's write our story until the end!
